COMPANY OVERVIEW

Bravo Group is one of Tanzania's leading integrated logistics and supply chain companies — delivering reliable, end-to-end solutions across East, Central and Southern Africa.

Founded in 2005 by Ms. Angelina Ngalula, we have grown into a diversified provider spanning road and rail transport, container freight stations, inland container depots, an empty container depot, customs clearance, freight forwarding, truck parking, and specialized bulk and humanitarian cargo.

Built on modern infrastructure, ISO 9001:2015-certified quality systems, strong global partnerships and a skilled team — Built To Deliver.

Ms. Angelina Ngalula
Founder, Bravo Group

BRAVO

Built to deliver

VISION

To be most trusted, innovative and integrated logistics company, connecting businesses, markets and communities through world-class supply chain solutions.

OUR CORE VALUES

- Safety First
- Integrity
- Customer Excellence
- Innovation
- Team-Work
- Operation Excellence
- Sustainability and Partnership

MISSION

To deliver safe, reliable and sustainable end-to-end logistics solutions that create value for our customers, employees, shareholders, and communities. We achieve this by investing in modern infrastructure, digital innovation, operational excellence, and a highly skilled workforce while supporting trade, industrial growth, and economic development across Africa

KEY SERVICES

CONTAINER FREIGHT STATION (CFS)

We run **four Container Freight Stations at Ubungo, Tazara, Mivinjeni and Sandali**, all close to the Port of Dar es Salaam. Exporters and importers get secure, covered handling for stuffing, de-stuffing, consolidation, storage and customs examination of minerals, agri-commodities, timber and MDF. Ubungo and Tazara are rail-connected to the Central Corridor and the SADC region.

INLAND CONTAINER DEPOT (ICD)

Our Inland Container Depots at Ubungo and Sandali take containers off the port quickly and handle them inland: storage, verification, transfers, lift-on/lift-off and reefer plug-in. Ubungo ICD connects directly to the TRC Metre Gauge Railway, cutting road congestion and transport costs.

EMPTY CONTAINER DEPOT (ECD)

Our Empty Container Depot at Ubungo receives, stores and releases empty containers for shipping lines. Exporters collect their export boxes and stuff them on the same site, with no extra trip to the port.

BULK VESSEL HANDLING

We provide bulk vessel handling for sulphur, ammonium nitrate, fertilizer, humanitarian cargo and other bulk commodities, including discharge, loading, stevedoring, storage and bagging at our Sandali Bulk Terminal, and onward delivery.

BRAVO

Built to deliver

KEY SERVICES

CUSTOMS CLEARANCE

Our in-house customs team handles import, export and transit clearance: documentation, duty and tax processing, cargo verification and transit bond management. Our branch at the Tunduma border keeps transit cargo moving to Zambia and the wider SADC region.

FREIGHT FORWARDING

We offer end-to-end freight forwarding by air, sea and land, managing bookings, documentation and multimodal transport to move customers' cargo seamlessly across borders.

RAIL TRANSPORT

We hold open-access rights on the TAZARA network and operate our own private trains on it, giving customers a lower-cost alternative to road for heavy and high-volume cargo.

ROAD TRANSPORT

Bravo Group owns and operates its own fleet of trucks, providing reliable road transport for first- and last-mile delivery. The fleet is fitted with GPS tracking, giving customers full visibility and control over their cargo in transit.

BRAVO UBUNGO
TERMINAL

87,000 SQM
Total Area at Ubungo Terminal

CFS
Container Freight Station

ICD
Inland Container Depot

ECD
Empty Container Depot

ONE SITE
EVERY SERVICE

Ubungo brings an Inland Container Depot, a Container Freight Station and an Empty Container Depot together behind one gate. Customers collect empties, stuff, clear and dispatch in one place, cutting trucking legs, waiting time and cost.

The site connects directly to the TRC Metre Gauge Railway for the Central Corridor.

BRAVO TAZARA
TERMINAL

Strategic Location
6 km from the Port of Dar es Salaam

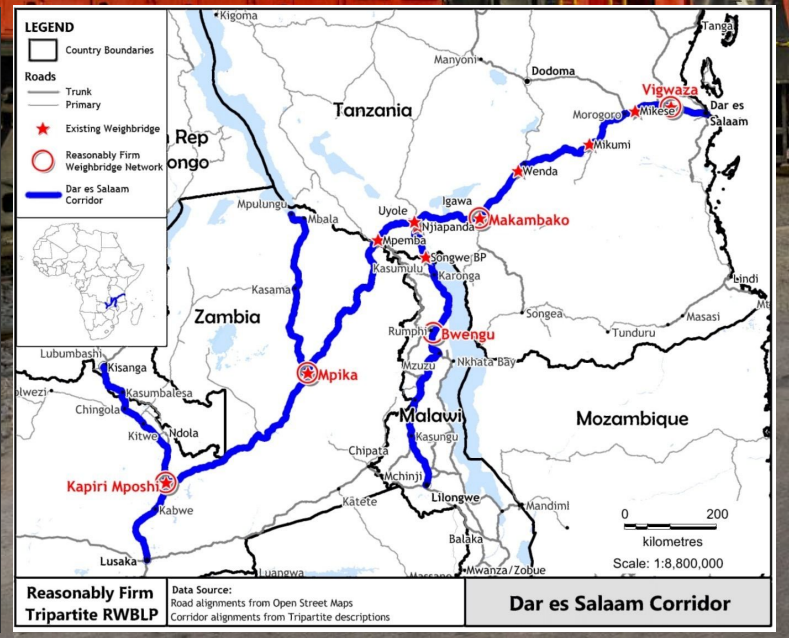

Rail Connectivity
Direct access to the TAZARA Cape-gauge railway linking Tanzania with Zambia and other SADC markets

CFS
Container Freight Station

GATEWAY
TO SADC

Bravo Tazara Terminal is a container freight station **just 6 km from the Port of Dar es Salaam**. It connects directly to the **TAZARA Cape-gauge railway**, giving seamless rail access to Zambia and the wider SADC region.

It is designed to facilitate the efficient movement of both import and export cargo while supporting regional trade and port decongestion.

BRAVO TAZARA
TERMINAL

A key competitive advantage is our seamless multimodal connectivity. Both facilities are directly connected to the TAZARA Cape Gauge Railway and the TRC Meter Gauge Railway, providing efficient rail links to the SADC region and the Central Corridor, while facilitating faster and more sustainable cargo movement between inland mining regions and the Port of Dar es Salaam.

BRAVO MIVINJENI

TERMINAL

A container freight station just 1 km from the Port of Dar es Salaam, our closest site to the quay. For exporters and importers that means the shortest port transfer, faster turnaround and lower trucking cost, with full CFS services on site.

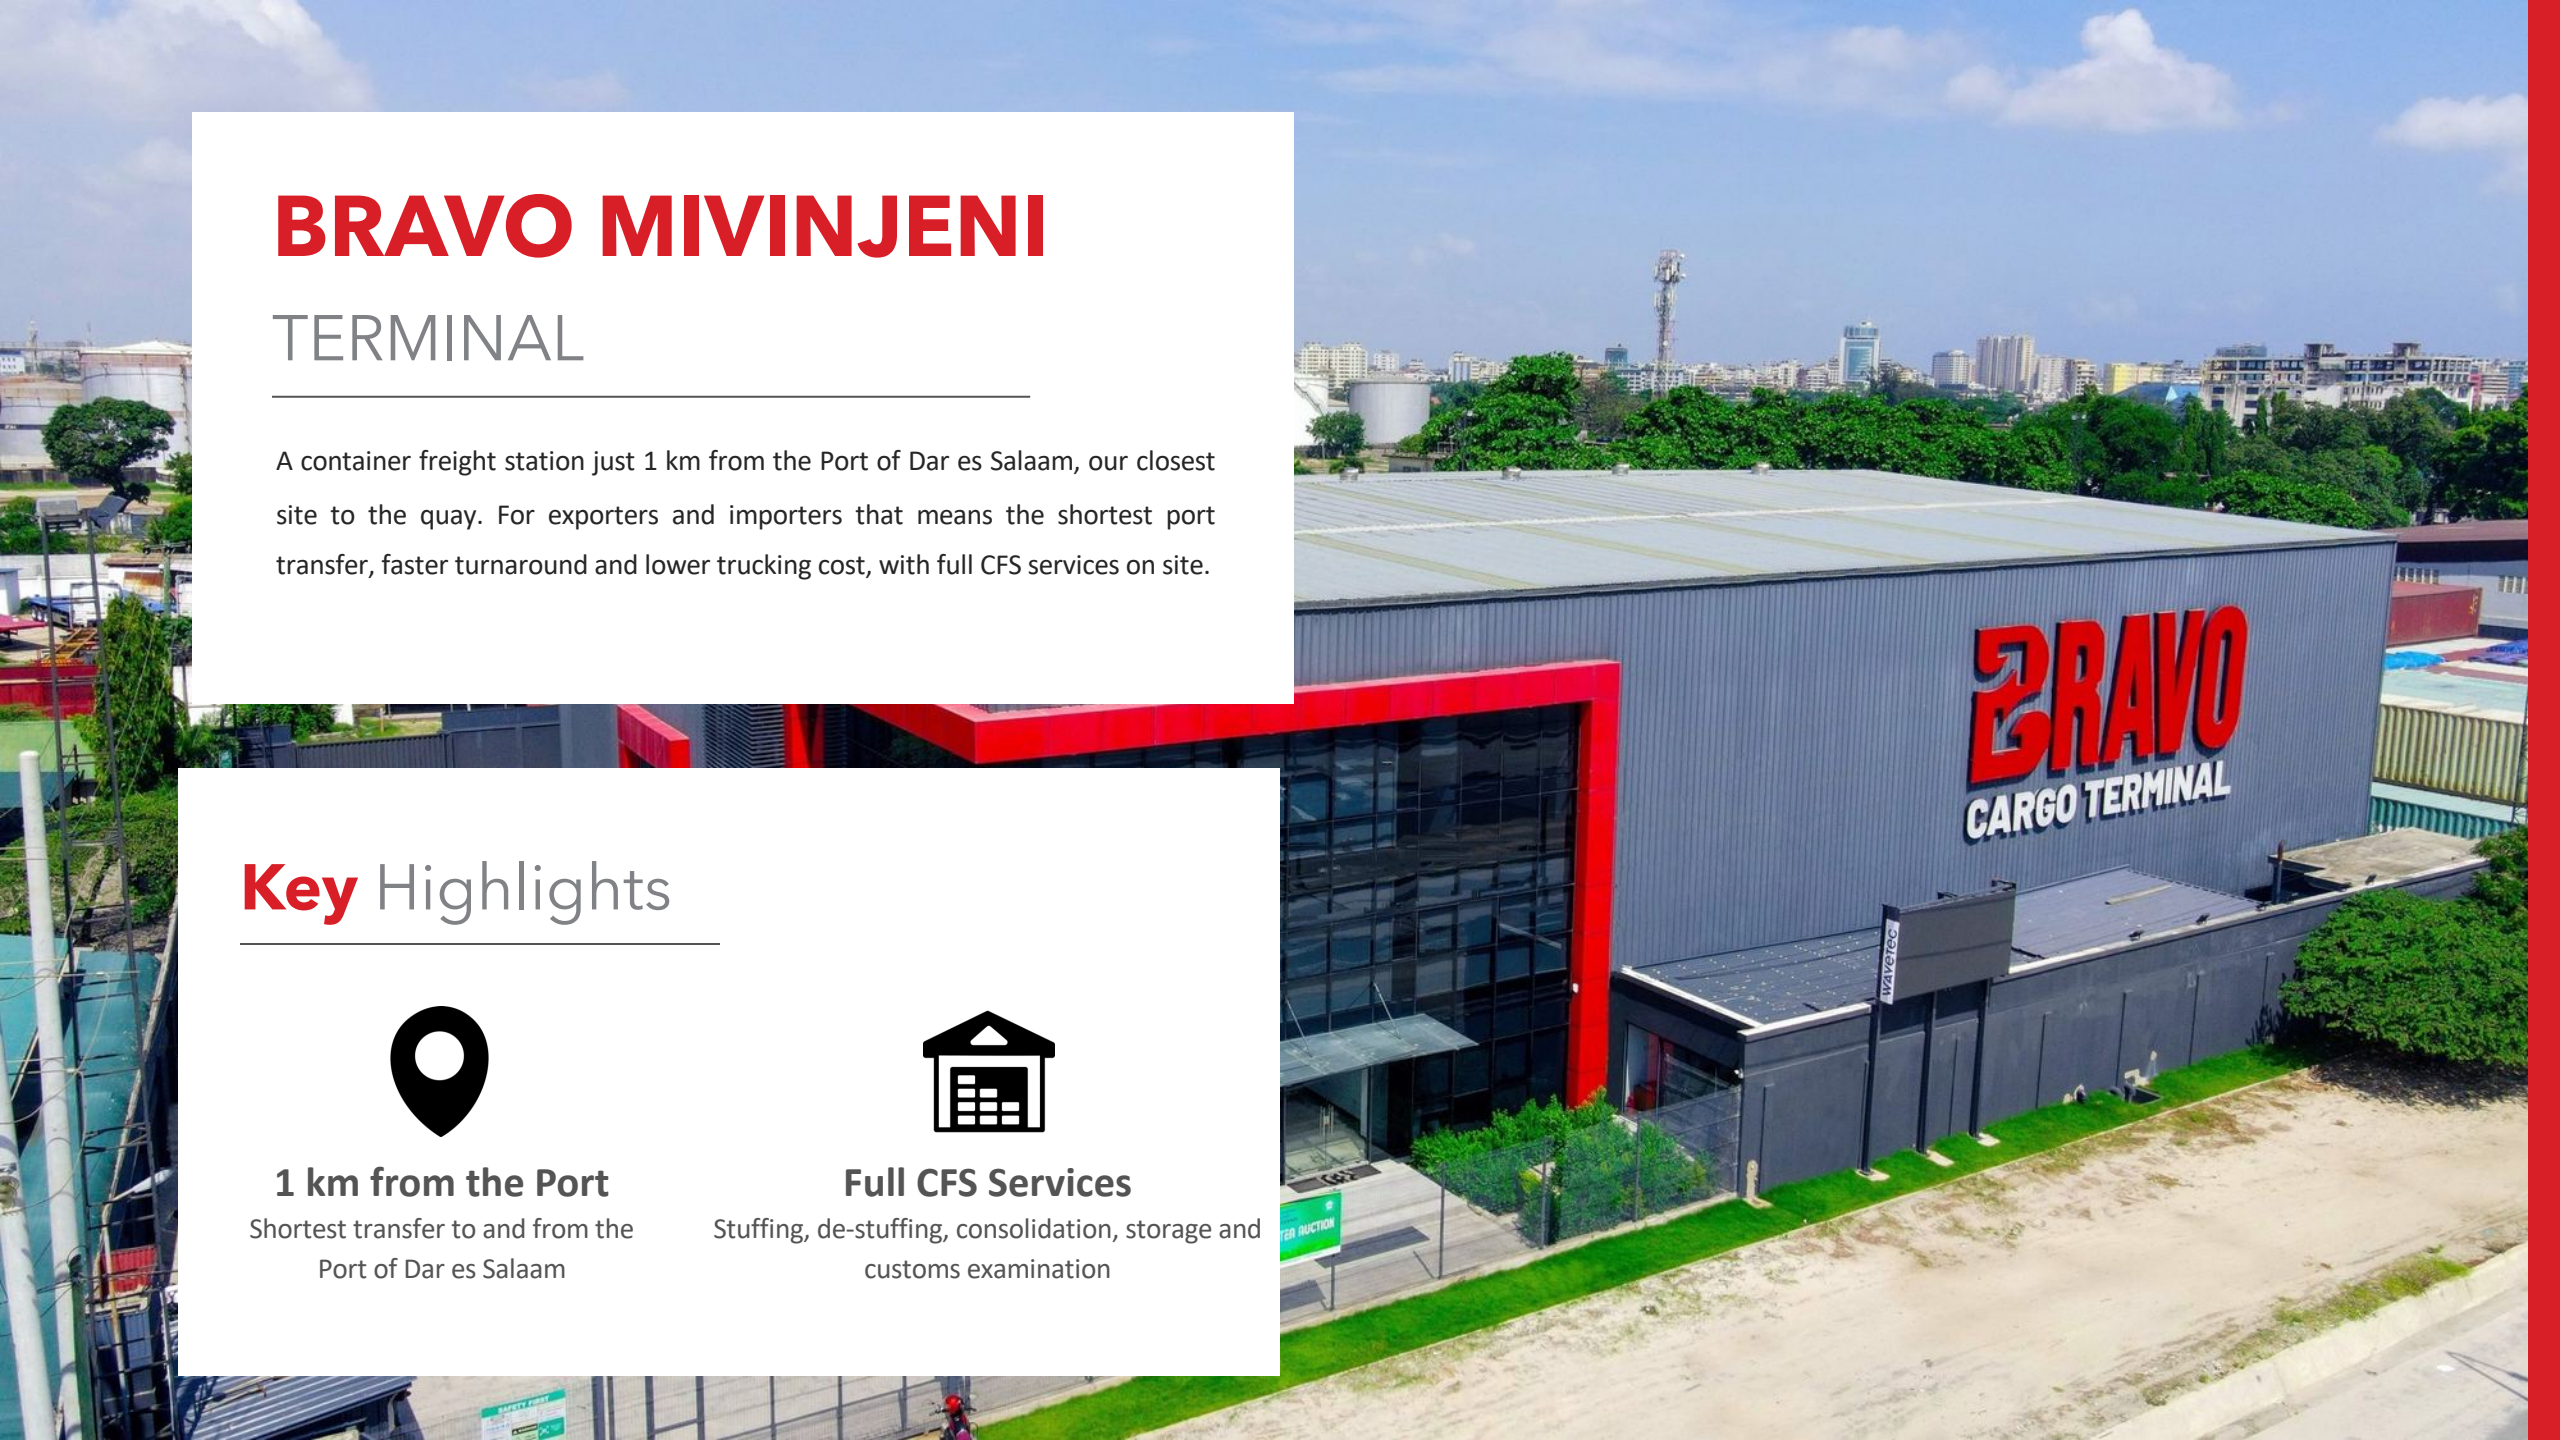

Key Highlights

1 km from the Port

Shortest transfer to and from the Port of Dar es Salaam

Full CFS Services

Stuffing, de-stuffing, consolidation, storage and customs examination

BRAVO SANDALI TERMINAL

80,000 SQM
Total Area at Sandali Terminal

CFS
Container Freight Station

ICD
Inland Container Depot

BULK
Bulk Terminal

GATEWAY TO GROWTH

Bravo Sandali Terminal is a modern inland logistics facility strategically located just 6 km from the Port of Dar es Salaam, providing efficient and cost-effective solutions for import, export and transit cargo. The terminal is designed to support port decongestion while enhancing cargo handling and supply chain efficiency.

BRAVO KILUVYA
HIGHWAY TRUCK STOP

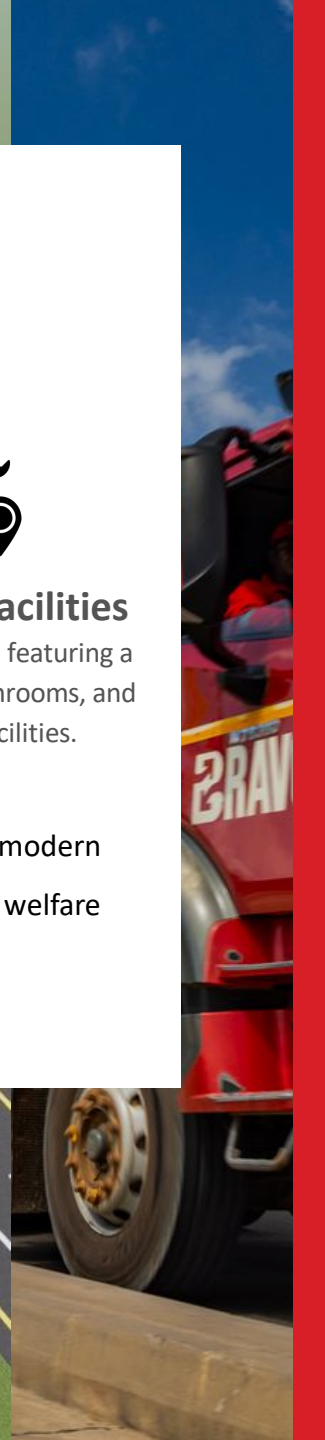

36,000 SQM
Modern Truck Parking

Smart Queuing
Smart digital queuing system for efficient truck scheduling and port access.

Future-Ready
Electric charging stations for electric trucks and future-ready transport solutions.

Modern Facilities
Driver rest area featuring a restaurant, bathrooms, and modern facilities.

Our flagship **Bravo Kiluvya Highway Truck Stop** sits on the main highway into Dar es Salaam: a modern truck parking and logistics support facility that improves road transport efficiency, enhances driver welfare and reduces congestion at the port through an advanced digital queuing system.
